Hello! My name is Khoi Tran, a result-driven and dedicated undergraduate exploring opportunities in the field of computer science. I am currently pursuing a Bachelor's degree in Computer Science at the University of Houston, where I've developed an mindset for experimentation and problem-solving. With a foundation in various programming languages such as Python, C++ and Java, I am eager to apply my skills in real-world projects and contribute to innovative solutions. If you're looking for a motivated and flexible individual to join your team, I would love to connect and discuss how I can assist in creating impactful solutions!

A PROGRAMMING JOKE FOR THE DAY:

A programming joke for the day:

What's the object-oriented way to become wealthy? - Inheritance.

Raptor Fences

JURASSIC PARK GOT A LOT LESS SCARY WHEN
THE RESEARCHERS DISCOVERED THEY COULD
ACTIVATE THE GENE FOR EXTREME DWARFISM.

If at least one person has a nightmare about being swarmed by hundreds of mouse-sized dromaeosaurids, my work will have been done.
